

Advincula  
**DELINEATOR™**  
with Koh-Efficient® Technology

Advanced Uterine Manipulator  
Exceptional Strength and Performance  
In an Easy-to-Use Disposable

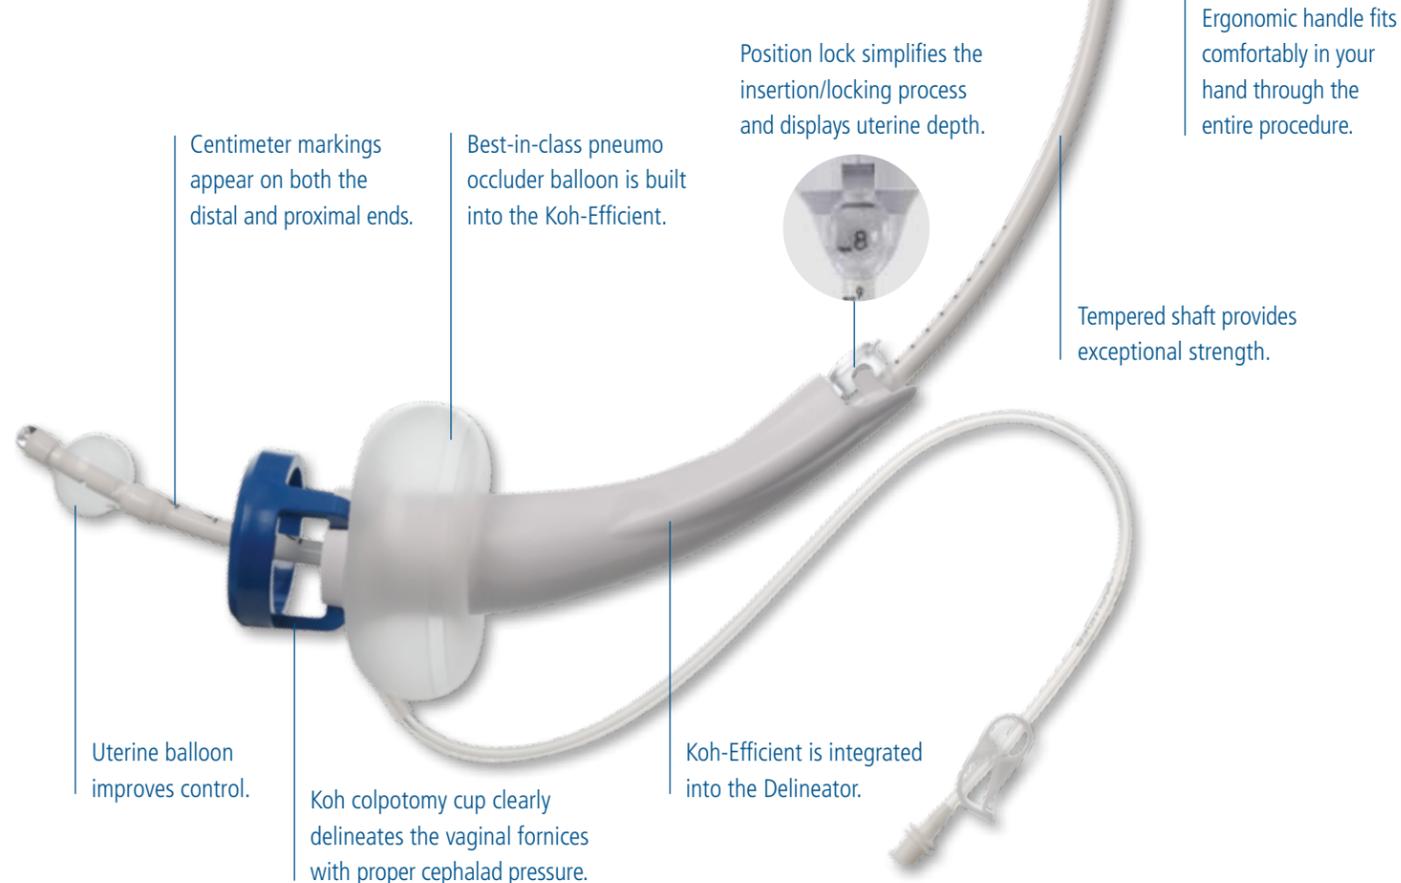

# Unprecedented Ease of Use, Safety And Strength for TLH, LSH and LAVH – In an Efficient Disposable Design

Koh-Efficient helps to create a "Margin of Safety" by displacing the ureters during colpotomy incision.

With proper cephalad pressure, the uterosacral ligaments are preserved.

Ergonomic handle fits comfortably in your hand through the entire procedure.

Tempered shaft provides exceptional strength.

Position lock simplifies the insertion/locking process and displays uterine depth.

Koh-Efficient is integrated into the Delineator.

Best-in-class pneumo occluder balloon is built into the Koh-Efficient.

Centimeter markings appear on both the distal and proximal ends.

Uterine balloon improves control.

Koh colpotomy cup clearly delineates the vaginal fornices with proper cephalad pressure.

## Superior Design Simplifies Prep and Speed of Insertion

The Advincula Delineator™ is designed for ease of use, safety and maximum efficiency.

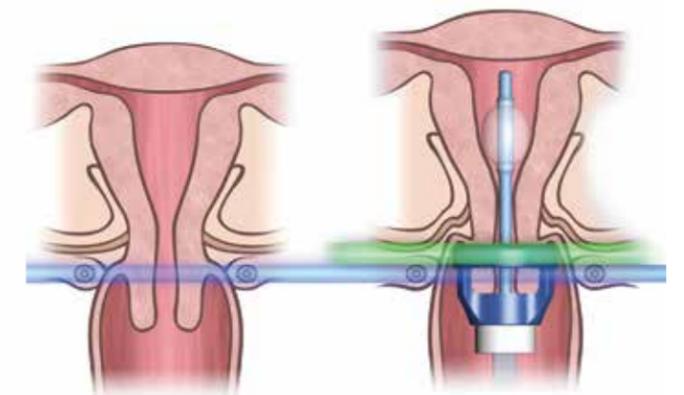

- Sound the uterus and use the Cervical Sizer to determine the appropriate Koh Cup size.
- Remove the fully-assembled device from the sterile packaging.
- Place manipulator through cervix and inflate uterine balloon.
- Slide the Koh-Efficient® to the sounded number marked on the handle.
- Press the position lock to secure the cup, and begin the procedure.

Integrated, unified design, simplifies setup and insertion.

## Koh-Efficient Helps Distance Critical Anatomy to Create a "Margin of Safety"

With the application of proper cephalad pressure, the Koh-Efficient helps to create a "Margin of Safety" by preserving the uterosacral ligaments and displacing the ureters during colpotomy incision.

Available in  
Three Cup Options –  
To Accommodate  
Surgeon Preference  
and Energy Sources

Ultem™ plastic cup for use with  
electrosurgical devices.

Stainless steel cup for use with  
harmonic scalpel and laser devices.

Flexible, soft cup designed for easy insertion,  
and for use with electrosurgical devices.
